

Team competition

Staying on the school premises, bring back the listed items as fast as you can (you might have to borrow a few items).

Work in a group, agree an action plan, then get collecting.

leaf of
grass

plastic
bag

empty
can or bottle

paperclip

a pair of
trainers

sandwich

not
pre-packed
deodorant

pocket
calculator

sheet of
paper

pencil

Once you have all your items, rank them in order of worst impact (10) to least impact (1) on the environment.

What teachers can do

This activity can be extended with a discussion about the order the found objects have been put in, the lifecycle of materials and recycling.

More information on lifecycle of materials
